

KOBRA è un'antenna $\frac{1}{4}$ d'onda ad uso veicolare operante sia in VHF che UHF con stilo in acciaio inossidabile, corredata di 4mt di cavo RG58 CU MIL.

SPECIFICHE TECNICHE:

Frequency	115/174 MHz tunable by cutting 400/470 MHz tunable by cutting
Impedance	50 Ω Unbalanced
Polarization	Vertical
Gain	0 dB (2.15dBi) ref. to a $\lambda/4$ whip
Bandwidth @ SWR \geq 2	10Mhz
SWR @ res. freq.	\leq 1.2
Max Power	100 Watts
Mount	"NE"
Whip material	Stainless Steel 17/7 PH
Mount material	Chromed Brass, Nylon
Height (approx.)	Whip 64cm / 12.5cm
Mounting Hole	\varnothing 10 mm
